## CoffeeCup Shopping Cart Creator License Code & Keygen

Create an online shop in minutes! Edit multiple products from one place Create and modify product, category and attribute fields Insert logic conditions Sort products automatically For all the products that you wish to sell, you can set up a complete product specification, one that consists of the detailed product description, title, image, price, discount, optional charges and shipping costs. Furthermore, you can create a product category, which is more of a specialised category of your product. This allows you to filter your products based on what they offer. The application gives you the option to edit your product description in multiple ways, such as title, short description, long description, featured images and price. The application allows you to create different versions of your product, such as a price variation (for products that are discounted), a version that can be purchased at the beginning of the season, or a version that is available for a limited time. The complete feature set of the software can be found here: [Extension Installer: What's New](#): - Fixed incorrect data being published in the localisation of the application - Updated demo shopping carts to follow and adhere to latest standards - Fixed bug where new WooCommerce websites were not updating their template files when a new version of CoffeeCup Shop was installed - Updated company email address in license agreement
