...the utility enables you to quickly perform operations on your files, folders, and system folders without opening the file explorer. SAMenu Crack is an Explorer context menu utility for Windows 98/Me/NT/2000/XP. It consists of a set of templates, one for each common operation you can perform on your files, folders, and system folders. As the name suggests, it allows you to "Set" your screen brightness to your preference, and lock the display to your preferences. These actions are done using the hotkey labeled "Set Display Brightness". It also allows you to "Set Display to Lock" and "Unlock Display". It is done using the hotkey labeled "Display". If you prefer not to use a hotkey, you can always use the "Settings" menu to get the same functionality. AppNote: Please note that this tool is not a reliable guide to every change you will make to your computer. If you want a more reliable way to manage your computer, please read our guide to Windows Server 2003 Security and Control (3rd edition). There is a limit of how much you can change in this way. If you have a display that is less than 75% bright, or darker than 50%, then it cannot be set as bright as it's capable of and the display cannot be set to Lock.
