## IncrediFlash Intro And Banner Studio

IncrediFlash Intro and Banner Studio is a very easy and helpful program to create a flash animated intro and banner without any flash knowledge. The only different between Intro and Banner project is, Banner project will automatically disable the preloader and add a sound mute button while Intro project will enable the preloader, disable the sound mute button and automatically insert a Skip text which will skip the intro to a specific URL when clicked. You can always enable/disable preloader and mute sound button at anytime in the later stage. You can also add the Skip text manually as you would add any other text in the later stage. You can either select from the preset dimension or choose Custom dimension which will allow you to type in your desired dimension. IncrediFlash Intro and Banner Studio user interface is designed to make it your work to design a banner as easy as possible. A large preview area at the top shows instantly any changes you made to your project. You can also directly manipulate each text to select, position, rotate and adjust text area width. To delete a text, simply select it in the preview and press delete button. A Publishing info is provided next to the preview window to show you the current project duration, dimension and file size. The file size will be updated every time you play/publish the project. Click Play / Stop button underneath the Publishing info to play/stop the movie playback. This is a free trial version of IncrediFlash Intro and Banner Studio. It contains 10 minutes time limit of your flash animation. License Agreement: --------------- This software is distributed under a non-commercial license. You are free to use it as you wish, but in no way it is allowed to redistribute this software or change its original features. Features: ----------- Intro & Banner: - High quality flash intro (any intro duration/size) - High quality flash banner (any banner duration/size) - Create an intro/banner from an already exist flash file (any duration/size) - Replace existing intro/banner in an already exist flash file (any duration/size) - Create an intro from a video (any video format/size) - Create a custom intro (any duration/size) - Create a custom banner (any banner duration/size) - Create a custom intro from a video (any video format/size) - Create a custom banner from a video (any video format/size)
