What's new:

- **EA SPORTS Football In Action (The One on One animation system) - Improvement to the game's animation system based on player individuality, from the way players move, accelerate and decelerate. However, the player animations no longer cause health to drain in actions like running off the ball.**
- **Create your own path to game glory by seamlessly switching between player and manager mode during the ball's flight. This mode allows you to transition between your Professional and Amateur career seamlessly in real time as you manage your club as a player.**
- **Deeper analysis of match data has allowed the game's motion capture technology to draw conclusions that bring the game to life in greater detail, and enables more opportunities and action determination in your games. For example, get more control over where teammates will position themselves in crowded areas in congested spaces.**
- **Improved player passes feel authentic, make more use of the game's sliders, and have a true feel for how each ball based on modern physics affects its delivery.**
- **Surface rewards you with more high-speed rewards, beautiful run animations as you shoot on goal with first-to-feature Artificial Intelligence skill additions.**
- **3D visualization and improved stadium graphics, as seen on the pitches of the world's best European and South American leagues.**
- **Improved team play - A major factor that pushes players to excel in today's game is the ability to pass and work together as teams; FIFA 22 offers players a new take on team play and improved communication during both defending and attacking.**

Key game modes.

- **OFFENSE Use the 3D touchpad to strike or chip your opponents to set up the shot. Control when your team attacks by holding down the shot button to set the perfect moment of attack. Use the free hit for a critical shot.**

-
- **DEFENSE** Protect your backline with the defensive button and control your full back and goalkeeper.
 - **3 on 3 Quick Reaction Soccer Teams - Individually coached Team Training and Online Play Features**
