moviegoers and throwing two firebombs at the building. Footage from the scene showed a throng of men marching through the foyer of the Metropol cinema, where they smashed projector stands, smashed a door and attacked people. Police responded swiftly. "The police has come," one of the protesters shouted, "and the police is coming to smash everything." One of the men told The Independent it was a protest against rising food prices. "These prices are ruining the people. We are asking the government to take action. This is a protest against rising prices." He added: "We wanted to show that we are not drunkards. We are not rude. We are not violent." In a statement, the Russian cinema authority said: "A group of young people attacked customers and the projectionist in the cinema." "The men were masked, and brandished sticks," the statement added. The masked men carried off at least a dozen hard drives from the building, one of whom told The Independent that they were a protest against rising prices of merchandise. A second protester claimed they were a protest against media censorship in Russia. The cinema authorities said police were called to the scene after being informed of the group's attack on the cinema by staff.
