It's an especially good idea for something like a wedding, where everyone may not share your skills of DIY construction. 3. Add a little character For those who prefer the clean cut exterior of portables, an exterior wall finish option will set your design apart. From a window treatment solution to PVC window film and styrene, you have a number of exterior options that are sure to be the subject of conversation at your next party. 4. Choose the right design If portables are on your list of party essentials this year, know that you'll have to select the appropriate model. We've included two options in this post, but we have a number of styles that are sure to get you started. Choose the portables that suit your needs, your space, and your party. 5. Party guests will want to grab the chair's arms as they enter and exit the restroom, so custom armrests, padded seat cushions, and decorative cushions are just a few essentials you'll want to consider for your party. 6. Make portables easy to clean Depending on the type of portable you choose, you may want to invest in a few things to make cleaning a breeze.
