Trial version download full [BL Game] kichiku megane R, if you have never played it, it is a light beat 'em up (slasher) which is a particular genre, generally the game will be over after less than one hour of play. Here, i like to summarize how to play it, and how the story goes. Since you can learn the controls from this gameplay sample, you can go on for the next part of the guide that actually explain how the story goes, and how you can actually move on in the game. After all, this first game sample is of a not so well known character. Kichiku Megane (Mr. Mr. R), a light mania, he is a high level of cult school's student (top student), and he is a very good player in his school's baseball team. What makes him cool is his body, it is really something, he is a guy with a top-notch body, and also, he is still young, and he is a normal 15 year old, but his body is too perfect, and he really can get almost any girl in Japan (except the ones in the second season). And he becomes a protagonist of 'kichiku megane(megane)' R, which means that he will continue the story after the events of Kichiku Megane(megane), and he is also participating in the events of Kichiku Megane(megane). But after the events of the second season, he finds out a mysterious story of a girl's body that is filled with something strange, and suddenly the idolization of "kichiku megane(megane)" is turned into a fear. There is a strong story, and also, there are plenty of levels, such as a 'forest', 'night club' and a 'beach'.
