* The official Adobe Photoshop introduction tutorial is available for free (at `www.adobe.com/go/photosoptutorials`). * If you are completely new to Photoshop, check out the features in Chapter 4, which should get you up to speed. * If you want a very brief intro to Photoshop, check out the free `Introduction to Photoshop` app, available at `www.apple.com/itunes/itunes-store/applications/photoshop`. * Watch a fantastic tutorial series at `www.pbase.com/photoshopplus`. Photoshop is not just for beginners. Some of the more complex features are well beyond the scope of the average end user. That doesn't mean they're off-limits, though. The purpose of this book is to cover the basics and teach you how to use the tools to create images and manipulate them.

$\{(\alpha,\beta)=1 \bmod n \text{ for all } (\alpha,\beta) \in \mathbb{Z}_n^{\times}\}$. The normalized integers a and b are called a double coset basis of Γ if $D=\{a,b \bmod n \text{ and } \bmod n\}=\{1,1\}$, and they are then called a normal double coset basis. A double coset basis C is a Sylow basis of the group Γ if and only if $|C|=\frac{n}{d_2}$.

Polarization switching of photonic maser in doubly resonant photonic crystal cavity. We propose a new scheme of polarization switching using a double-resonant photonic crystal (PC) cavity by exploring the nonlinear polarization rotation effect. The PC cavity shows double resonances of TE and TM modes and is based on an all-dielectric PC with a modified structural shape. The cavity is composed of two dielectric blocks located on the top and bottom surfaces of the air hole, having a different resonance frequency and guided mode for each mode. The nonlinear polarization rotation is obtained for each eigenmode by determining the instantaneous eigenmodes at the initial condition and by capturing the evolution of the eigenmodes by varying the waveguide width. The total polarization conversion ratio is demonstrated to be approximately 20 % and larger than that in the other polarization-switching schemes based on a PC cavity. Polarization switching is experimentally demonstrated with a conversion ratio of 15 %.As The Guardian reports, former President Barack Obama went on CNN Monday and declared that the Freedom Caucus is “just A political wing of the Republican Party in Congress.” The Fox News host tried to calm Obama’s claims, saying that the Freedom Caucus is “not a wing” of the Republican Party. ADVERTISEMENT “You’re saying it’s not a wing, that they’re just a political wing of the Republican Party in Congress,” Obama responded. “There’s a lot of places where you can get support,” Obama said. “But look, there’s a functioning majority that voted for me, that is going to govern for the next few years.” Obama further said, “Frankly, the notion that somehow most of the people in the House are going to be Democrats for the next two years, that’s not necessarily going to happen.” Watch the video, embedded below via CNN:The aryl hydrocarbon receptor is expressed on the endothelium of rat thoracic aorta. The aryl hydrocarbon receptor (AhR) mediates the bioactivity of many dioxin-like compounds, which have been shown to exert adverse effects on the vasculature. This study was designed to determine whether AhR is expressed on endothelial cells, as well as on vascular smooth muscle cells. The expression
