Got the solution here by using trial and error method. Renaming the  
folder by removing the ".rar" Use the command line from 1 to 3 and  
select the files you want to unzip Use the command line 4. Rename the  
folder, its good! I don't know how to explain the solution properly.  
Actually you need to read the email of the support, I think its python  
script, and you need to use cmd line. #ifndef HAVE\_SIGACTION extern  
void sigaction (int, struct sigaction \*, struct sigaction \*); #endif #ifndef  
HAVE\_SIGVEC extern int sigvec(int 6d1f23a050
